

1000s of disabled people have died thanks to the brutal policies of the DWP by starving some to death after their benefits were stopped, some driven to suicide, and some dying from their conditions after being 'fit to work'. Here are just a handful.

**STEPHEN CARRE

**JODEY WHITING

**KER FEATHERSTONE

The current Labour government wants to continue this devastating work, using the same contrived tactics and lies spreading (for example, benefit fraud has always been less than 0.5%)

This means we will need to add more boxes for Labour MPs to fill in the details of those who will die in the future on their watch.
